Available
Packaging:

Index	Article name
77-058	Clinex DiShine 5L
77-059	Clinex DiShine 10L

Properties:

Concentrated agent for rinsing and polishing dishes in catering dishwashers. The preparation makes, that the washed dishes are shiny, without stains, streaks and deposits. The preparation contains a dehumidifier that accelerates the flow of water from the Surface, taking care of not leaving stains and streaks. Exceptionally good results are achieved in combination with the professional dishwasher liquid Clinex DishWash. Thanks to this, the dishes are perfectly washed and shiny and the effect of cleanliness is achieved in a short time. Especially recommended for professional dishwashers in restaurants, hotels, mass catering establishments and automatic household dishwashers.

Instructions for use:

1. Use in accordance with the manufacturer's recommendation washing device.
2. Recommended working concentration: 0.1-0.5 ml/L of water, depending on the degree of soiling of the dishes.
