Properties:

A low-foaming, universal alkaline preparation for daily washing of all kinds of hard, waterproof floors. Quickly and effectively removes impurities, leaving a long-lasting pleasant, fruity smell. It does not contain allergens. Thanks to the unique formula of the preparation, a delicate polymer coating is created on the cleaned surface, caring for and protecting the washed material against re-contamination. Thanks to its low-foaming properties, the liquid is intended for washing with both mops and scrubbers and single disc machines.

Instruction for use:

1. Shake well before use
2. Depending on the frequency of washing and the degree of soiling of the cleaned surfaces, use appropriate dilutions:

Hand washing: 50-500 ml/10 L of water

Machine washing: 50-200 ml/10 L of water
