Properties:

High-quality, modern washing and care fluid. Extremely effective and easy to use agent intended for the care of wooden, wood-like and laminated furniture. Thanks to the content of natural ingredients, it perfectly nourishes the surface, protecting it against the aging process. Contains modern antistatic agents, not only effectively eliminate dust, all dirt and grease stains, but also prevent its re-deposition, thanks to which the surface stays clean for longer. The formula was enriched with a concentrated protective emulsion in the form of avocado oil and the presence of polymers whose role is to deeply care for wooden surfaces. It restores the natural color of the cleaned surfaces. The preparation evaporates quickly, leaving no streaks, and the pleasant, fresh fragrance stays in the room for a long time.

Instructions for use:

1. Shake well before use.
2. Apply the preparation directly on the surface to be cleaned or spray on a soft, clean cloth, and then wipe the surface with it.
