Index Article name
77-613 Clinex Anti-Spot 250 ML

Properties:

A preparation with a very effective effect, intended for removing all kinds of stubborn dirt. It has very good cleaning properties. The product is very efficient. It does not contain bleaching agents or brighteners, therefore it is safe for the cleaned surfaces. By local application, it removes water-insoluble dirt from surfaces such as upholstery, carpets, washable surfaces. Removes stubborn dirt: chewing gum, glues, tar and bitumen, printer and stamp ink, candle wax. It easily removes traces of labels, self-adhesive films and natural resins.

Instructions for use:

1. Shake before use
2. Use without dilution. Spray and allow to act..
3. Pick up with a clean, absorbent cloth. Remove the chewing gum with a spatula.
