Biodegradable, low-foaming preparation to remove greasy dirt

- Environmentally safe product
- Biodegradable, low foaming, fragrance-free preparation
- Safe for cleaned surfaces
- Has excellent degreasing properties
- Safe for aluminium surfaces
- Can be used on surfaces in contact with food

## Properties:

Concentrated, low-foaming preparation designed for washing waterproof surfaces in gastronomy and processing industry, industrial floors in production halls, repair plants, car workshops. It removes all greasy dirt from surfaces such as: concrete floors, PVC, natural and artificial stone, tiles, aluminum, inox steel, powder coated surfaces, etc. found in industry and gastro-nomia. The product does not contain a fragrance composition, so it can be used in rooms and surfaces in contact with food and in rooms with a small area or without windows. Suitable for washing floors, walls and other washable surfaces. Thanks to its low foaming, the preparation can be used in manual and machine washing.

INICODIALICAL

#### Directions for use:

- 1. Shake well before use
- 2. It is recommended to dilute the concentrate in a ratio of 0.2-10% (20-1000 ml of the agent per 10 L of water)
