Index Article name
77-696 Clinex M3 Acid 1L
77-697 Clinex M3 Acid 5L

Properties:

Concentrated, low foaming, highly acidic preparation for all waterproof and acid-resistant floors. A product with high potency. It perfectly dissolves limestone, removes dirt and soap residues. Especially recommended for stainless steel surfaces, floor and wall tiles and sanitary porcelain. Depending on the dosage, it can be used for current or thorough cleaning of damp rooms.

Instructions for use:

1. Shake well before use
2. Depending on the frequency of washing and the degree of soiling of the cleaned surfaces, use appropriate dilutions:

Current washing: solution 0.1-0.5% (10-50 ml/ 10 L of water)

Intensive washing: 1-5% solution (100-500 ml/10 L of water)

Thorough cleaning: 2-10% solution (200-1000 ml/10 L of water)

NOTE:

- For professional use only
- Do not use on natural stone containing limestone, such as travertine, shell limestone.
- Do not use on aluminum, painted surfaces and glass acrylic
- Do not use on materials with damaged enamel or chrome-plated surfaces
- Before use, it is recommended to check the surface resistance to acids by performing a preparation test on a small piece of surface, in a hardly visible places.
- When descaling / terracotta surfaces, it is recommended to pre-soak the joints with water.
- In the event of any splashing of the preparation on a surface that is not resistant to acids, rinse it off immediately.

SAFETY:

- Do not mix with other products.
- See the safety data sheet for additional product information.

STORAGE CONDITIONS:

- Store the product at 5 to 30°C.
- Store in original, sealed packaging only.
