

Clinex W3 Fuga

Concentrated grout and joint cleaner

- No scrubbing required
- Effectively cleans grout
- Works instantly

Available
packing:

Index Article name
77-944 Clinex W3 Fuga 0,5 L

Properties:

Powerful Concentrated Cleaner for Deep Cleaning of Grout and Joints. Effectively removes accumulated dirt from wall and floor grout and joints. Thanks to its active surfactants, increased viscosity, and convenient applicator, the product has a prolonged working time as it flows more slowly on vertical surfaces. The cleaner easily penetrates hard-to-reach areas, removing inorganic contaminants and accumulated mineral deposits. It works instantly, dissolving built-up grime without the need for scrubbing..

Application:

For cleaning: floors, wall and floor tiles, bathtubs, toilets, urinals, shower trays, sinks, etc.

Instructions

1. Shake before use
2. Apply the product to the soiled surface, wait for 30 seconds, and then rinse thoroughly with water.
3. For washable surfaces, use 50-300 ml of the product per 10 liters of water. For moderate soiling, use 300 ml per 1 liter of water. For heavy soiling, use the product undiluted.
4. Rinse thoroughly with water.

information & applications

NOTE:

- For professional use only.
- Before use, test the product on a small area.
- Use only on acid-resistant materials. If in doubt, consult the chemical resistance recommendations for the surface being cleaned.
- Do not use on natural stone, aluminum, metal surfaces, lacquered surfaces, or acrylic glass.
- Do not use on materials with damaged enamel or chrome coatings, or on damaged glaze and ceramic tiles.
- The viscosity of the product may vary depending on temperature and storage conditions. This is not a defect.
- Do not significantly extend the contact time of the product with the surface, as this may damage the grout structure.
- The Seller shall not be liable for any use of the product against its intended purpose.

SAFETY:

- Do not expose the packaging to direct sunlight.
- Do not mix with other products.
- See the safety data sheet for additional product information.

STORAGE CONDITIONS:

- Store the product at 5 to 30°C.
- Store in original, SEALED packaging only.
